

# DISPOSABLE SYNMAX 4G™ GLOVES

NON-STERILE, POWDER-FREE

Revolutionary new formula of vinyl-nitrile based hybrid material ensures much latex-like properties with ample elasticity and strong “bones” of nitrile gloves. They offer enhanced tactile sensitivity and a practical barrier of protection for a wide range of applications. They are also a good alternative for those suffering from Type I allergies

## Features

- The donning feeling is better than vinyl gloves, Comfortable conforming latex-like fit
- Wearing time is longer than nitrile gloves.
- PU coating, with no protein in it, allergy risk is reduced effectively.
- Effective barrier and extra strength
- Better protection, good resistance of acid, alkali and oil.
- Popular color in blue and white

## Quality standards

- Complies with EN 455 and EN 374
- Complies with ASTM D5250 (USA Related Product)

Type	Material	Color	Model	Storage	Size/overall length as per EN455-2	Impermeability as per EN455-1	Durability, in original packaging if stored as per din 7716, ISO 2230
Powder-free non-sterile	Compound of vinyl-nitrile Based hybrid	Blue, black, purple, pink, yellow, white	Ambidextrous with rolled rim	Protect from heat, humidity, strong light and ozone	S M L XL 240 mm (≥230mm for USA)	AQL1.5	Min. 5 years
